How to operate the FDC-320 with arduino controller

MIT

Torfi Þorgrímsson*

QUICK START

First you must install the Julia language

WINDOWS

Run the following command in powershell or cmd

```
winget install JuliaLang.Julia
```

LINUX

Run the following command in your favorite shell

```
curl -fsSL https://install.julia.org | sh
```

SETUP ENVIRONMENT

Then open a Julia REPL in the FDC-320 folder

```
julia --project=.
```
